

OUR LEARNING PLAN

HAZEL CLASS

LITERACY

We are focusing on using books with a transport theme. We will be working on learning our two stories 'You can't take an elephant on a bus' and 'Emma-Jane's aeroplane'.

We will learn our stories through repetitive reading, using Makaton, sequencing and drama to act them out. We will be focusing on writing simple phrases and sentences to retell the stories and then creating our own class versions of the books.

MATHS

We will be focusing on place value including partitioning numbers into tens and ones. We will then move our focus onto the four calculations which are addition, subtraction, multiplication and division. We will spend time looking at how to complete each of the calculations through adding, taking away, grouping and sharing. We will use a wide range of manipulatives and practical activities to support our learning.

THEMATIC CURRICULUM

Our theme this term is 'Transport'. We will be looking at a wide range of vehicles and comparing them. We will also be looking at how we can move them in different directions and how to make them stop. We will use ramps to see if we can get them to travel faster or slower and why this happens. We will also make different vehicles using junk modelling and lego.

PE

Our PE day is now Tuesday. Please come to school in your PE kit. Miss Knight and Mrs Barker will be focusing on developing gross motor skills as well as continuing the development on our fundamental skills which are: balance, co-ordination and agility.

PSHE

We will be working on understanding different emotions and how our bodies feel when encountering these. We will also be learning how to be a good friend and developing our understanding of kind and unkind behaviours. We will use practical activities to embed our learning.
